

## PRE-HISPANIC SPA IN YELAPA

*Cacao, temazcal, and living nature*

Embark on a sensorial and renewing journey. We depart from the pier, sailing between mountains and beaches toward the magical landscape of Yelapa. There, ATVs will take us to Santuario, the heart of this experience.

You will be welcomed with an ancestral cacao drink, learning about its history and sacred benefits. Copal and caracol (seashell) mark the beginning of the temazcal, where the steam of volcanic stones and ancestral chants guide a deep purification.

After the ceremony, a soak in the Jacuzzi awakens the senses, followed by a light snack. To conclude, an outdoor volcanic mud exfoliation cleanses and nourishes your skin, culminating in a swim in the river to reconnect with the earth. Optionally, you can enjoy the à la carte menu.
